Mrs. Reed, in relating the curious dream to her husband, told him that the old woman took a purple egg from her pocket, and after rubbing it on one side for a moment a clover-leaf appeared, and the old woman told her to go home and look for the purse in the garden. Mr. Reed laughed at it at first, and then, becoming curious, went out into the garden to satisfy his curiosity, and on turning over a large pumpkin-leaf, there lay the pocket-book where Mrs. Reed had dropped it out of one of those patch-pockets that are basted on the polonaise. f. THE HEALTH OF THE CITY-A TRUE STATE-MENT FROM AN OFFICIAL SOURCE .- The editors of this paper yesterday addressed a note to the President of the Board of Health, requesting him, in view of recent publications, to give an official statement regarding vellow-fever. RICHAOND, September 19, 1878. Editors Dispatch: An undue portance has been attached to the arrival in this city of a family of recase of yellow-fever has been developed, which is now progressing very favorably towards convalescence. This family, being very destitute, are supplied by the city authorities with everything necessary for their treatment and comfort, with medical attention and nurses; hence it will be unnecesadditional. Every precaution will be taken to preserve the premises where these per-

sons are located pure and inoffensive. The city authorities and the citizens generally have not thought it necessary or advisable to throw any impediment in the way of the refugees from the infected districts finding an asylum in our midst; hence no attempts have or will be made to establish land quarantine, and the only anxiety heretofore and now felt is in reference to the arrival of a vessel from some infected port,

which might bring the germs of the disease. Richmond was never in a more healthy condition for this season of the year than at present. The whole city is in a cleanly state. The duo for violin and piane, "Il Bar-

plause it elicited, was greatly enjoyed by the audience. The old piano of the Association was supplanted by a new Knabe grand. It is a superb instrument, and its tones are rich, full,

and sweet. The last No. of the Baton was unusually good, and happily in keeping with the muenjoyable we have had for months.
